Last Chance for ICD-10 Training before the Big Day!!!!

As ICD-10 is going live on **October 1, 2015**, Medical Coding Solutions is offering one last ICD-10-CM/PCS coding boot camp. This two day course will teach the changes from ICD-9 diagnosis and procedure coding to ICD-10-CM/PCS.

**Already had ICD-10 training??** This will be a great refresher and great training for the last stretch....

**Need CEU's????** This course offers **16 AHIMA CEU's**

When: September 25 and 26, 2015 from 8:00am-4:00pm

Where: Southwest Virginia Higher Education Center

1 Partnership Circle

Abingdon, VA 24212

Fees for course: $500 for all books and materials

Or

$350 if you already have ICD-10-CM/PCS coding manuals

**The Challenge**

Beginning October 1, 2015, the U.S. government is mandating the shift from the existing ICD-9 code System to ICD-10-CM/PCS. This will increase the number of diagnosis/procedure codes from about 20,000 to more than 155,000. With this increase in specificity, coding professionals need to know this new code set and the new coding guidelines. This course will teach proficiency in ICD-10-CM.

**The Solution**

Medical Coding Solutions wants give your practice the best ICD-10 training course available. Experience an intense 2-Day coding boot camp that offers a strong foundation in both inpatient and outpatient coding. Upon completion of this program you will gain skills and knowledge to have confidence using ICD-10. Experience a 2-day hands on ICD-10 boot camp. With hands on training, participants will achieve mastery of the ICD-10 diagnosis coding set. Learning ICD-10 today will ensure accurate coding, prompt reimbursement and fewer denials when ICD-10 is implemented and will make a smooth transition on October 1, 2015.
